INDEX TO VOLUME 6

A

Abscess of lung, calcified and simulating tumor (Graham and Singer), 173
nontuberculous, etiology, treatment and results (Cutler and Gross), 125
pathogenesis of acute (Stern), 203
treatment of (Allen and Blackman), 156
Alexander, John. Discussion of papers on suppurative lesions of chest, 198
(with Anderson, R.). Closed and open intrapleural pneumonolysis results in 111 and 29 cases, respectively, 502
Allen, Clyde I. Discussion of papers on suppurative lesions of chest, 200
(with Blackman, J.). Treatment of lung abscess, with report of 100 consecutive cases, 156
American Association for Thoracic Surgery. Amendments to constitution and by-laws of, 710
list of members for 1936, 231
twentieth annual meeting, 354, 476, 710
American Board of Surgery organized, 591
Anderson, Russell S. (with Alexander, J.). Closed and open intrapleural pneumonolysis results in 111 and 29 cases, respectively, 502
(with Leslie, G. I.). Intensive collapse therapy in pulmonary tuberculosis (abst.), 708
Andrews, C. H. Thoracoscopic removal of broken aspirating needle, 456
Andrus, William D. Tumors of the chest derived from elements of the nervous system, 381
(with Foot, N. C.). Report of a large thymic tumor successfully removed by operation, 648
Apiolysis, conservation of first rib in (Lilienthal), 414
Arce, Jose. Total pneumonectomy for congenital bronchiectasis, 344
Artificial pneumothorax in ambulatory patients (Myers), 513

B

Beatty, Oren A. Chylothorax, 221
Behrend, Albert (with Mann, F. C.). Some postoperative effects of pneumonectomy, a morphologic study, 685
(with Thomas, L. C., and Mann, F. C.). Experimental pneumonectomy, 677
Bergstrand, H. Four cases of Ewing sarcoma of ribs (abst.), 226
Berry, Frank B. (with Potter, B. P., and Bortone, F.). Phrenic interruption in the treatment of pulmonary tuberculosis, a five-year study and follow up, 424
Bettman, Ralph. Discussion of papers on suppurative lesions of chest, 198
Bird, Clarence E. Variations in the ages, sizes and physical characteristics of the main bronchi in relation to their closure, 367
Bisgard, J. Dewey. Acute empyema, 624
skeletal deformities in children resulting from empyema and methods of prevention, 609
Blackman, James F. (with Allen, C. I.). Treatment of lung abscess, with report of 100 consecutive cases, 156
Bliss, Theodore L. Bronchorrhea, its occurrence in a case of bronchiogenic carcinoma, 660
Bloom, William. Pulmonic alveolar epithelium, 83
Bloxsom, Allan P. Empyema: a method of treatment with continuous irrigation and drainage, 698
Bohrer, J. V. Discussion of papers on surgery of esophagus, 42
discussion of symposium on surgery of lungs and mediastinum, 334
Book review, clinical tuberculosis (Goldenberg), 229
diseases of air and food passages of foreign body origin (Jackson and Jackson), 474
el tratamiento medico-quirurgico de las supuraciones pulmonares (Oyanguren), 475
Bortone, Frank (with Potter, B. P. and and Berry, F. B.). Phrenic interruption in the treatment of pulmonary tuberculosis, a five-year study and follow up, 424
Bradford frame, use of, to promote dependent drainage and to prevent scoliosis (Bisgard), 624
Brand, M. A. (with Hurst, A.). A study of venous pressure and circulation time in pulmonary tuberculosis, 638
Bremer, J. L. The fate of remaining lung tissue after lobectomy or pneumonectomy, 336
Bronchiectasis, congenital, total pneumonectomy for (Arce), 344
experimental, production of (Weinberg), 402

Bronchiogenic carcinoma, occurrence of bronchorrhea in a case of (Bliss), 660
Bronchorrhea (Bliss), 660
Bronchoscopic aspects of bronchial tumors (Jackson and Konzelmann), 312
Bronchoscopy, bronchoscopic aspects of bronchial tumors (Jackson and Konzelmann), 312
Bronchus, fifty-seven cases of bronchiogenic carcinoma (McKay) (abst.), 123
variations in ages, sizes and physical characteristics in relation to their closure (Bird), 367
Brunn, H. (with Levitin, J.). Study of lower lobe of lung (abst.), 473
Burnett, W. E. One-stage pneumonectomy under local anesthesia, successful case reported, 458
Butler, E. F. Discussion of papers on suppurative lesions of the chest, 197

C

Calcified pulmonary abscess simulating tumor (Graham and Singer), 173
Carter, N. B. (with Longacre, J. J., and Quill, L. McG.). Total pneumonectomy, 237
Carter, R. A. Pulmonary mycotic infections (abst.), 121
Churchill, E. D. Discussion of symposium on surgery of lungs and mediastinum, 335
lobectomy and pneumonectomy in bronchiectasis and cystic disease, 286
Chylothorax (Beatty), 221
Cleveland, Mather. Lateral curvature of the spine following thoracoplasty in children, 595
Congenital cystic disease of the lung (Wood), 634
Coon, H. M. (with Keeley, J. L., and Gale, J. W.). Total pneumonectomy for congenital cystic disease of the lung, report of successful case, 626
Coryllos, P. N. Discussion of papers on surgery of esophagus, 41
discussion of papers on surgical treatment of pulmonary tuberculosis, 587
Cutler, E. C. Discussion of papers on suppurative lesions of chest, 199
(with Gross, R. E.). Nontuberculous abscess of the lung, etiology, treatment and results in 90 cases, 125
Cystic disease, congenital, of the lung (Wood), 634
pulmonary (Pollock) (abst.), 470

D

Decker, H. R. Diagnosis and treatment of benign ulcers of the esophagus, with case report, 20
discussion of papers on surgery of esophagus, 44
discussion of papers on surgical treatment of pulmonary tuberculosis, 585
Deformities, skeletal, in children resulting from empyema and methods of prevention (Bisgard), 609

E

Edwards, F. Ronald. Sympathetic shock in thoracoplasty (abst.), 707
Eloesser, Leo. Discussion of papers on suppurative lesions of chest, 197
Empyema, acute (Bisgard), 624
in children (Gizelius) (abst.), 226
method of treatment with continuous irrigation and drainage (Bloxsom), 698
skeletal deformities in children resulting from (Bisgard), 609
Esophagus, atresia, surgical management of congenital (Leven), 30
defects in muscular coat (Lerche), 1
study of muscular coat and its defects (Lerche), 1
ulcers, benign, treatment of (Decker), 20
Ewing sarcoma of ribs (Bergstrand) (abst.), 226

F

Fisher, R. C. Abscess of the mediastinum, 212
Foot, N. C. (with Andrus, W. D.). Report of a large thymic tumor successfully removed by operation, 648
Forsee, J. H. Unusual complications following closed intrapleural pneumolysis, 108
Freedlander, S. O. Discussion of papers on surgical treatment of pulmonary tuberculosis, 589
(with Wolpaw, S. E.). A control group for studying the end-results of thoracoplasty, 477
Fried, B. M. Pulmonic alveolar epithelium, 85

G

Gale, J. W. (with Keeley, J. L., and Coon, H. M.). Total pneumonectomy for congenital cystic disease of the lung, report of a successful case, 626
Ganglioneuroma (Andrus), 385
Gizelius, G. Pleural empyema in children (abst.), 226

Goldstein, J. D. The "Gordon test" for Hodgkin's disease (abst.), 122
Graham, E. A. Discussion of papers on surgical treatment of pulmonary tuberculosis, 585
discussion of symposium on surgery of lungs and mediastinum, 329
(with Singer, J. J.). Three cases of resection of calcified pulmonary abscess (or tuberculosis) simulating tumor, 173
(with Tuttle, W. M., and O'Brien, E. J.). Studies on tuberculin hypersensitiveness, 544
Gross, R. E. (with Cutler, E. C.). Nontuberculous abscess of the lung, etiology, treatment and results in 90 cases, 125

H

Harper, Fred R. Phrenic interruption combined with artificial pneumothorax for pulmonary tuberculosis (abst.), 708
Hart, Deryl. Sterilization of the air in the operating room by special bactericidal radiant energy, 45
Head, Jerome R. Discussion of papers on surgical treatment of pulmonary tuberculosis, 590
paraffin pack and thoracoplasty in the closure of large apical cavities, 491
Heart, metastatic tumors of (Miller) (abst.), 123
Heinbecker, Peter. Nervous control of respiration, 355
Hemopneumothorax, spontaneous (Hopkins) (abst.), 706
Hobbs, M. E. (with Skinner, G. F.). Intrathoracic cystic lymphangioma, 98
Hodgkin's disease, Gordon test in (abst.), 122
Holman, Emile. Discussion of papers on suppurative lesions of chest, 199
partial resection of the lower scapula as an aid in compressing apical tuberculous abscesses and in conserving vital capacity, 496
Hopkins, Henry U. Spontaneous hemopneumothorax (abst.), 706
Hurst, Allan (with Brand, M. A.). A study of venous pressure and circulation time in pulmonary tuberculosis, 638

I

In memoriam. Beye, Dr. Howard L., 704
Honan, Dr. William F., 118
Smythe, Dr. John, 116

J

Jackson, Chevalier (with Jackson, Chevalier L.). Diseases of air and food passages of foreign body origin (book review), 474
Jackson, C. L. Discussion of papers on surgery of the esophagus, 40
(with Konzelmann, F. W.). Bronchoscopic aspects of bronchial tumors, 312
Joannides, M. (with Schlack, O.). Use of phrenic neurectomy combined with artificial pneumoperitoneum for collapse of adherent tuberculous lung, 218

K

Keeley, J. L. (with Gale, J. W., and Coon, H. M.). Total pneumonectomy for congenital cystic disease of the lung, report of successful case, 626
King, Donald S. The right middle lobe and the lateral roentgenogram, 666
Konzelmann, F. W. (with Jackson, C. L.). Bronchoscopic aspects of bronchial tumors, 312

L

Lateral curvature of the spine (Cleveland), 595
Lerche, William. The muscular coat of the esophagus and its defects, 1
Leslie, G. I. (with Anderson, R. S.). Intensive collapse therapy in pulmonary tuberculosis (abst.), 708
Leven, N. L. Surgical management of congenital atresia of the esophagus with tracheo-esophageal fistula, 30
Levitin, J. (with Brunn, H.). A study of the lower lobe of the lung (abst.), 473
Lewis, Ivor. Bilateral lobectomy for bronchiectasis (abst.), 472
Lilienthal, Howard. Conservation of the first rib in apicolytic thoracoplasty procedure and advantages, 414
discussion of papers on suppurative lesions of chest, 196
discussion of papers on surgery of esophagus, 40
discussion of papers on surgical treatment of pulmonary tuberculosis, 586
discussion of symposium on surgery of lungs and mediastinum, 332
Lipoma, mediastinal (Walker, R. M.), 89
Lobectomy (see pneumonectomy)
Lobectomy, bilateral, for bronchiectasis (Lewis) (abst.), 472
fate of remaining lung tissue, 336

Longacre, J. J. Discussion of symposium on surgery of the lungs and mediastinum, 334
(with Carter, B. N., and Quill, L. McG.). Total pneumonectomy, physiologic changes following, 237
Lung, a study of the lower lobe (Levitin and Brunn) (abst.), 473
closure of large cavities with paraffin pack and thoracoplasty (Head), 491
Lung abscess, acute putrid (Neuhof and Touroff) (abst.), 471
calcified, simulating tumor (Graham and Singer), 173
in children (Mathews) (abst.), 706
nontuberculous (Cutler and Gross), 125
pathogenesis of putrid (Stern), 203
treatment of (Allen and Blackman), 156
Lymphangioma, cystic intrathoracic (Skinner and Hobbs), 98

M

McKay, D. R. (with Rosedate, R. S.). Study of 57 cases of bronchiogenic carcinoma (abst.), 123
Macklin, Charles. Pulmonic alveolar epithelium, 82
Mann, F. C. (with Behrend, A.). Some postoperative effects of pneumonectomy, a morphologic study, 685
(with Behrend, A., and Thomas, L. C.). Experimental pneumonectomy, 677
Mathews, Frank P. Lung abscess in children (abst.), 706
Matz, P. B. End-results of the surgical treatment of pulmonary tuberculosis (abst.), 122
Mediastinal lipomas (Walker), 89
Mediastinum, abscess of (Fisher), 212
acute infections and suppuration (Neuhof), 184
Methods of prevention of skeletal deformities in children (Bisgard), 609
Miller, J. K. Metastatic tumors of heart (abst.), 123
Mycotic infections, pulmonary (Carter) (abst.), 121
Myers, J. A. Artificial pneumothorax, with particular reference to the ambulatory patient, 513
discussion of papers on surgical treatment of pulmonary tuberculosis, 588

N

Needle, removal from pleural cavity with thoracoscope (Andrews), 456
Nerve, chest tumors from elements of nervous system (Andrus), 381
Neuhof, Harold. Acute infections of the mediastinum with special reference to mediastinal suppuration, 184
discussion of papers on suppurative lesions of chest, 200
(with Touroff, A. S. W.). Acute putrid abscess of lung (abst.), 471

O

O'Brien, E. J. Results of 15 consecutive one-stage lobectomies for bronchiectasis, 278
(with Tuttle, W. M., and Graham, E. A.). Studies on tuberculin hypersensitiveness, 544
Operating room, sterilization of air in (Hart), 45
Overholt, R. Discussion of symposium on surgery of lungs and mediastinum, 333
Oyanguren, H. El tratamiento medico-quirurgico de las supuraciones pulmonares (book review), 475

P

Palmer, D. M. Pulmonic alveolar epithelium, 83
Paraffin pack and thoracoplasty in the closure of large apical cavities (Head), 491
Phrenic neurectomy, combined with artificial pneumoperitoneum for collapse of adherent tuberculous lung (Joannides and Schlack), 218
interruption of phrenic nerve in treatment of pulmonary tuberculosis (Potter, Berry and Bortone), 424
Pneumonectomy and lobectomy in bronchiectasis and cystic disease (Churchill), 286
complications following closed intrapleural pneumolysis (Forsee), 108
experimental (Thomas, Behrend and Mann), 677
fate of remaining lung tissue (Bremer), 336
intrathoracic anatomical readjustments following complete ablation of one lung (Rienhoff), 254
mass ligation of the pulmonary hilum with a silver band (Shambaugh and Zollinger), 350
one-stage under local anesthesia, successful case (Burnett), 458
physiological changes following total, experimental (Longacre, Carter and Quill), 237
readjustments in thoracic cage following total and partial (Rienhoff), 227
relation to closure of size and physical characteristics of main bronchi (Bird), 367

Pneumonectomy—Cont'd
results of 15 consecutive one-stage lobectomies for bronchiectasis (O'Brien), 278
some postoperative effects of (Behrend and Mann), 685
total, for congenital bronchiectasis (Arce), 344
total, for congenital cystic disease of the lung (Gale, Keeley and Coon), 626
Pneumonolysis, closed and open intrapleural, results in 111 and 29 cases, respectively (Anderson and Alexander), 502
Pneumoperitoneum, combined with phrenic neurectomy for collapse of adherent lung (Joannides and Schlack), 218
Pneumothorax, artificial, in ambulatory patients (Myers), 513
Pollock, William C. Pulmonary cystic disease (abst.), 470
